## AQUARIUM TEST STRIPS 5 IN 1

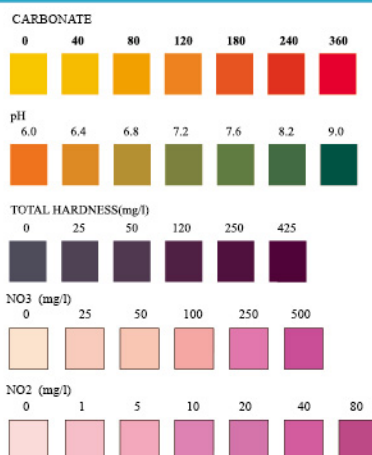

• Accurate and Sensitive

• Easy to Read

Carbonate, pH, Total  
Hardness, NO<sub>3</sub>, NO<sub>2</sub>

50 STRIPS

IMPORTANT: KEEP CAP ON TIGHT BETWEEN USE

### DIRECTIONS

Simply dip the strip into the water for 2 seconds and then remove it immediately. Hold horizontally for 60 seconds without removing excess water from strip, and then compare the result against the color chart. You now know if your water needs treatment. Apply treatment, if necessary, and retest before using.

- Keep tight between each use.
- Store at room temperature.
- Do not remove desiccants.
- Do not touch the test panel of the strips.
- Use before expiration date.
- Read instructions carefully before use.
